

## **Hey little sister** - skrevet i 1992

Hey little sister where have you been  
Hey little sister were shall we begin

I have watched you fall apart  
I have seen your smile fade  
Maybe I was wrong to let you stay  
But I knew I had to go  
Had to fly away  
Like an eagle must fly into the sky

Hey little sister where have you been  
Hey little sister were shall we begin

Wanna tell you something sweet  
To cheer you up again  
Hoping you'll be glad to see me here  
In a way I hope that you  
Can say: I still love you  
Even though I said goodbye to soon

Hey little sister where have you been  
Hey little sister were shall we begin
